

# World Energy Council – Danish National Committee

2016 Energy Trilemma Index: Benchmarking the  
sustainability of national energy systems

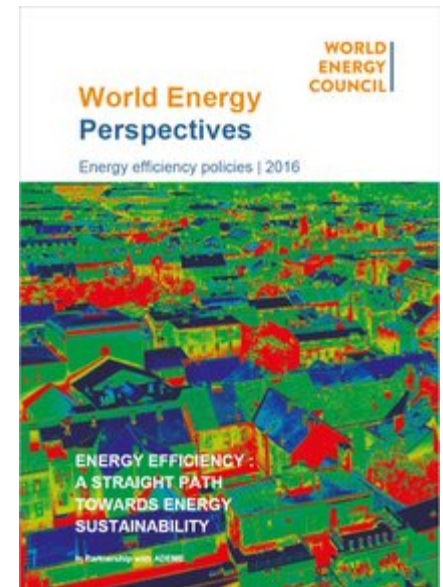

# Welcome

To the high-level experts from the energy sector gathered here today

## A special welcome to

Isabelle Vincent, ADEME, France, who will present the report “Energy efficiency: a straight path towards energy sustainability”

Our guest speakers from The Copenhagen Centre on Energy Efficiency, Siemens A/S, SEAS-NVE, Danish Energy Agency.

# About us

- Network of leaders and practitioners promoting an affordable, stable and environmentally sensitive energy system for the greatest benefit of all.
- UN-accredited global energy body with more than 3000 member organisations in over 90 countries.
- Members from governments, private and state corporations, academia, NGOs and energy-related stakeholders.

# Our objects

- To promote the sustainable supply and use of energy for the greatest benefit of all people, by:
- Collating data about and undertaking and promoting research into sustainable supply and use of energy.
- Publishing the useful results of such research.
- Undertaking actions like congresses, workshops and seminars to promote energy policy developments.

# Programme

14:00 - 14:10

Welcome and introduction. By Claus Møller, president, WEC Denmark

14:10 - 14:40

Presentation of the World Energy Council report: "Energy efficiency: a straight path towards energy sustainability". By Isabelle Vincent, ADEME, France.

14:40 - 15:00

The Copenhagen Centre on Energy Efficiency. By Timothy Clifford Farrell, Senior Advisor, UNEP DTU Partnership.

15:00 - 15:20

ESCO projects. By Kurt Othendahl Nilsen, Siemens A/S.

15:20 - 15:40

High Temperature Thermal Energy Storage. By Ole Alm, SEAS-NVE.

15:40 - 16:00

The Energy Union Package with a special view to energy efficiency. By Stig Uffe Pedersen, Deputy Director, Danish Energy Agency.

16:00 - 16:30

Discussion and reception
